(VIDEOWIKI)

01

ONLINE SESSIONS

Create your online class, in a dynamic and customizable room.

02

POST-PRODUCTION OF RECORDINGS

Record your sessions for later editing in the studio.

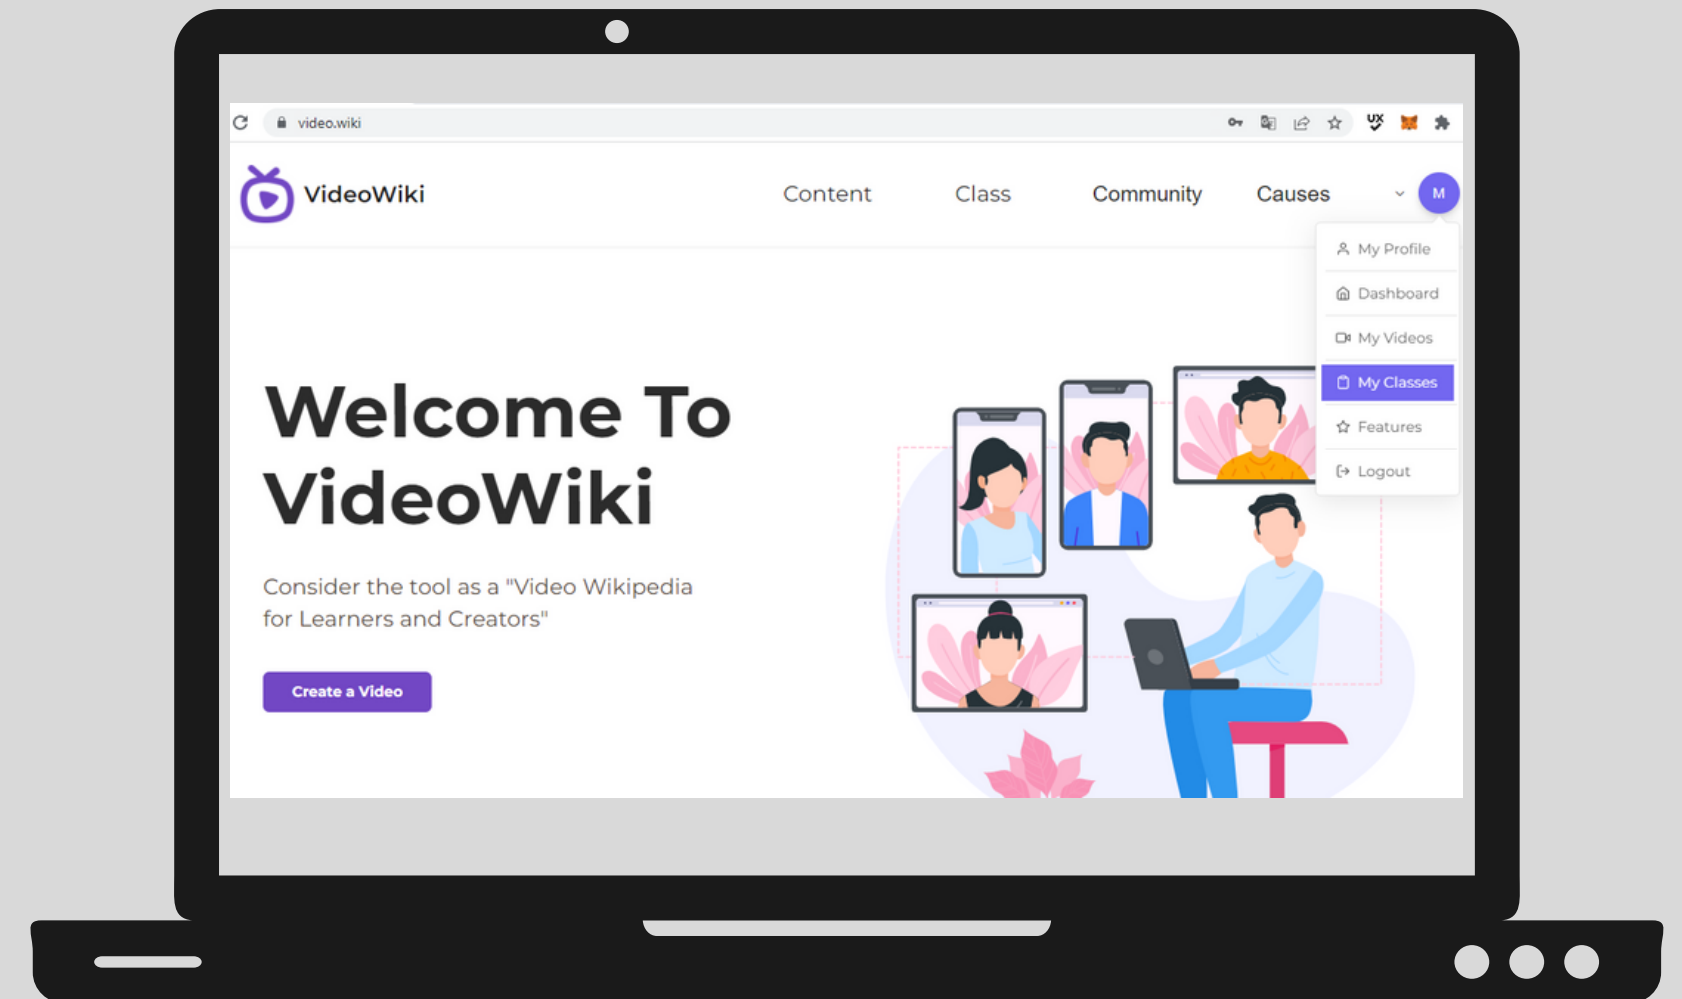

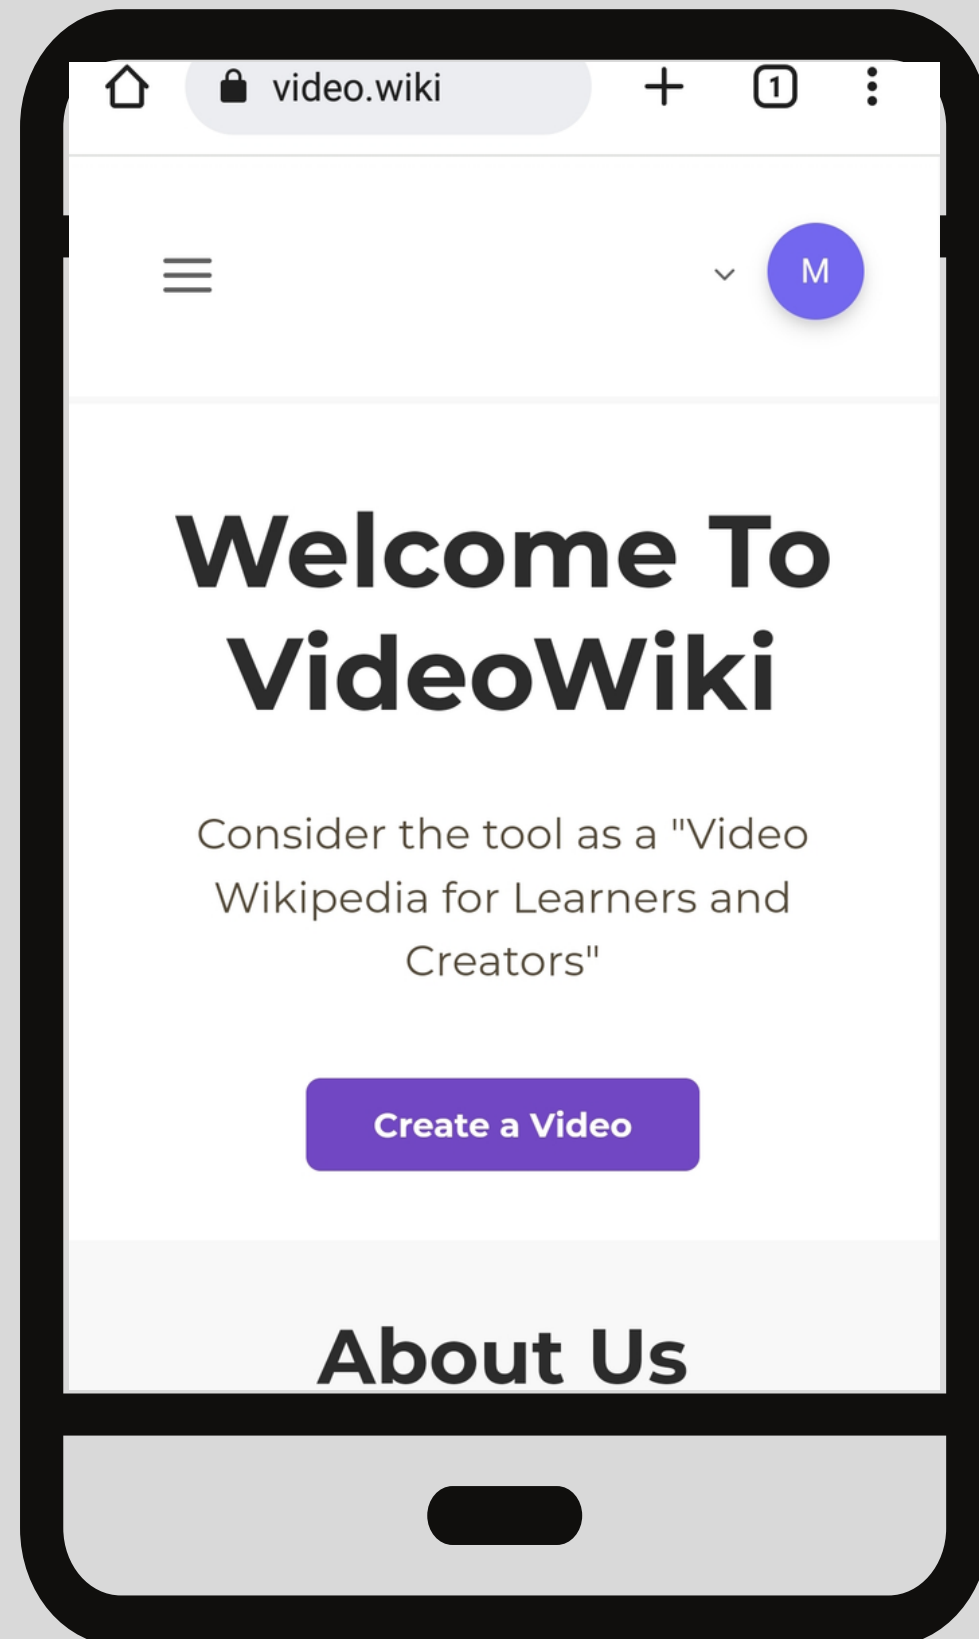

03

AI ASSISTED CREATION OF VIDEOS BASED ON SCRIPT

Turn your written document into a video, using the studio.

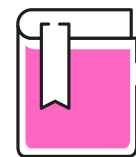

VideoWiki

Digitize, Digitalize and Digitally transform the processes involved in content creation, sharing and learning methodologies.

The Technology

For the tool to work as smooth as possible, we need to resort to several technologies.

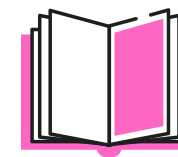

Video Creation

AI-based text classification methods. We make queries to public video media libraries using APIs.

Videoconferencing

Docker, FFmpge, Nginx, Vue Js & Django, AWS, React Js, Java, Redis, Ruby on Rails and Python. Machine Learning models and open APIs.

Event Scheduling

DjangoRestFramewok, Vue Js, Python, AWS, Nginx, Blockchain, Docker Javascript and Ruby on Rails

Technology Partners

OCEAN Protocol

Ethereum Swarm

Growth to Date

2020

We were born in April 2020, when we won the [#EUvsVirus](#) Hackathon Challenge, a non-profit online hackathon to connect civil society, innovators, partners and buyers across Europe.

We also won the [#HackBack](#), an online hackathon organised by What The Hack, and [DigiEduHack](#), an initiative that looks for ideas and solutions to solve digital education challenges, in Europe and beyond.

In December, we were a finalist of the [#DFINITY Foundation](#), whose mission is to develop technology that supports the next generation Internet Computer blockchain network and ecosystem.

2021 was the year to **grow our team**. We got grants and won applications which allowed us to welcome new valuable team members.

In September and October we were ready to **host online events** (public and private), that were streamed and post-produced in the platform.

This was also the year where we closed some **fundamental partnerships** with companies and organizations.

Growth to Date

2022

We are now in a moment
where we're looking for
funding and investment.

We started the year
hosting an **online event**
powered by Ethereum
Swarm, one of our
partners.

WHAT NOW?

How is it going?

USERS FROM ALL OVER THE WORLD

A stylized illustration of a woman with long black hair, wearing a purple t-shirt and white pants, sitting cross-legged and reading a book. She is positioned inside a large circular frame with a purple border. The background within the circle is divided into four quadrants by a white cross, resembling a window. The top-left quadrant shows a white circle (moon or sun) in a light blue sky. The top-right quadrant shows a light blue sky with a white cloud. The bottom-left quadrant shows a light blue sky with a white cloud. The bottom-right quadrant shows a light blue sky with a white cloud. The entire circular frame is surrounded by two green leafy branches, one on each side, which are planted in white pots at the bottom. The pots are filled with green soil.

Our Vision

Meaningful Human Collaboration

Besides collaboration in content creation between users, our team offers fully customized support.

Individual Specialized Features

Every company and organization we've partnered with helped us building the platform, with their value feedback.

Knowledge Sharing

Our ultimate goal is to create a culture of knowledge sharing, available to all.

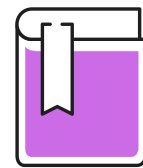

The Ask

At the stage VideoWiki is right now, we are looking for funding in order to expand.

Básica

Publicidade paga para 1 apresentação de pesquisa. Dura 1 semana.

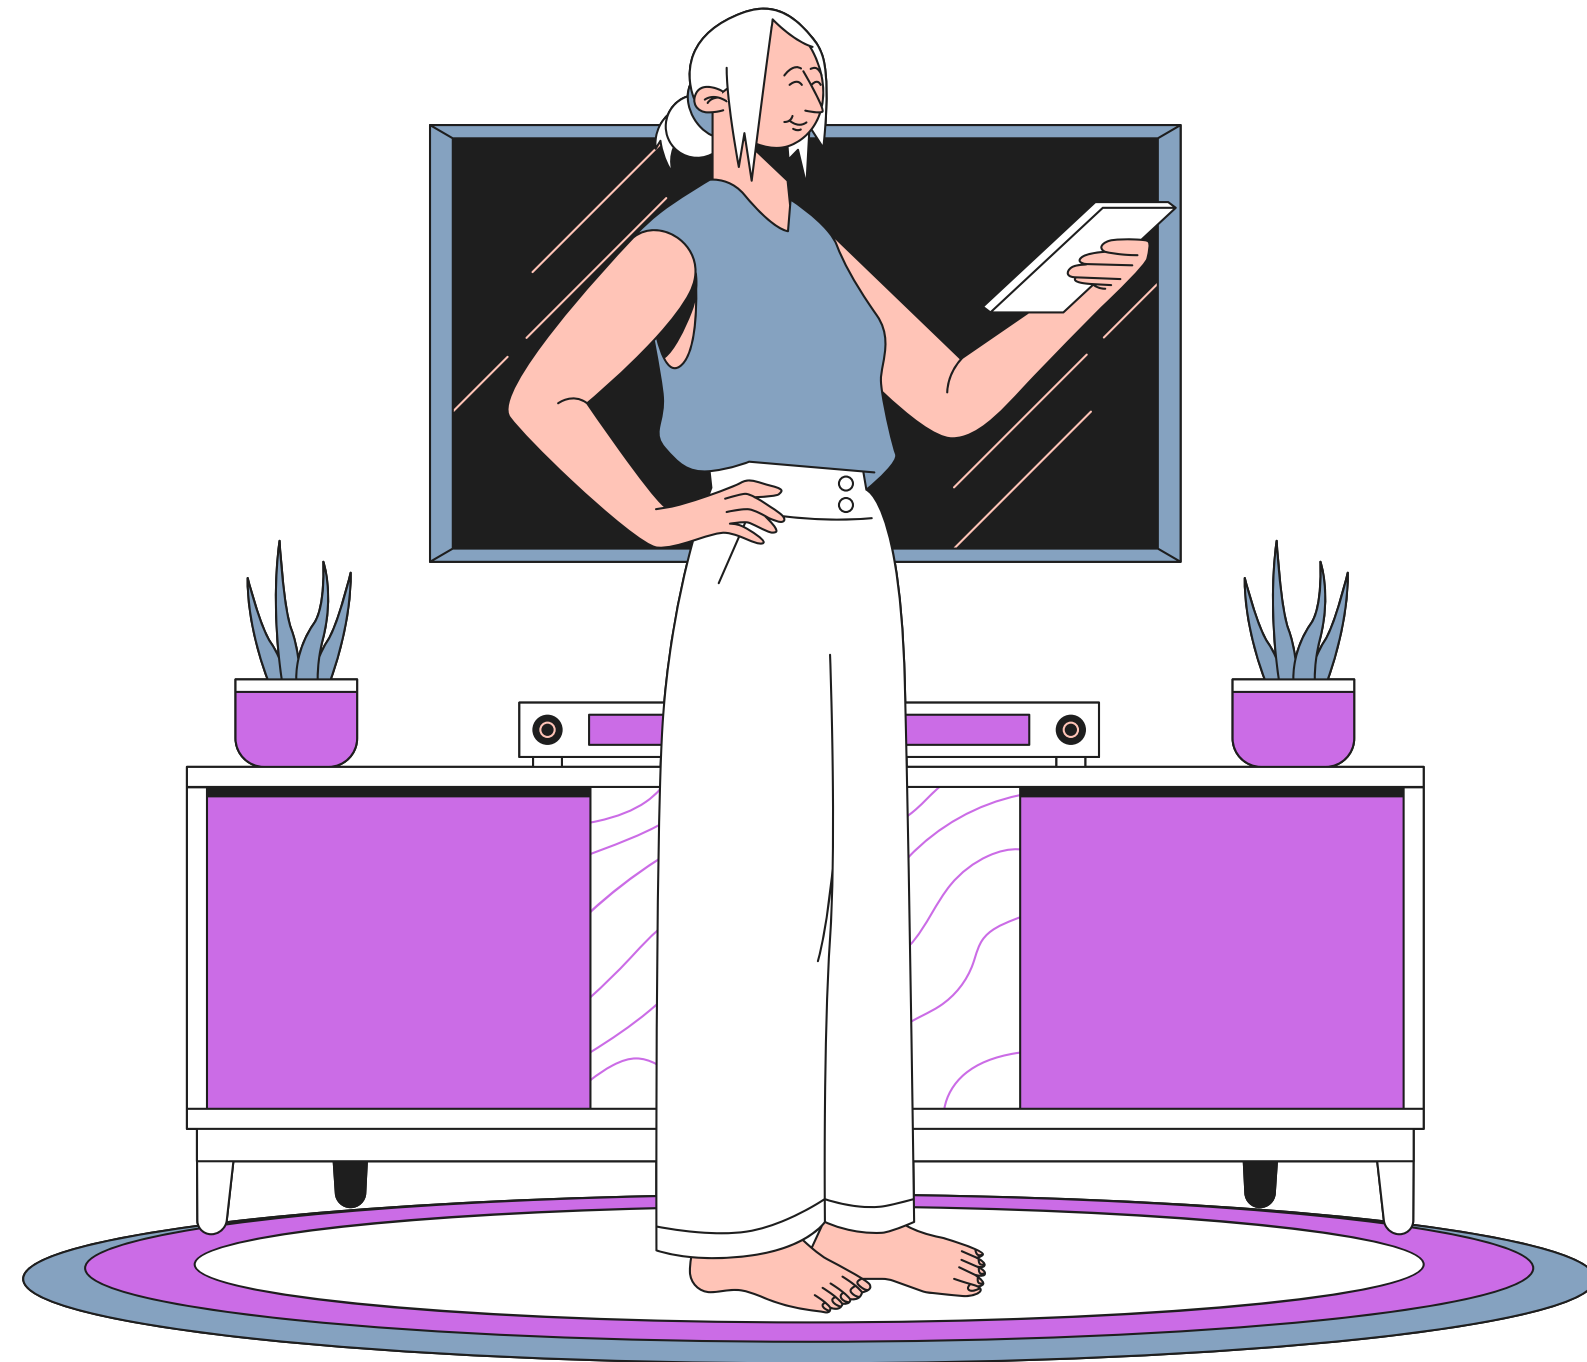

Estudante

Publicidade paga para 2 apresentações de pesquisa. Dura 2 semanas.

Profissional

Publicidade paga para 2 apresentações de pesquisa. Dura 1 mês.
